

PHASE II OPTION 3

Option 3 mentioned building a building on the current Hoover High campus to house 9th and 10th graders, pulling both grades out of the current Hoover High campus.

The 11th/12th grade building would house 1363 students.

The 9th/10th grade building would house 1362 students.

We were unable to make notes regarding what the middle school configuration would be under this option, but it does include using the current Freshman Campus as the 4th middle school.
